Boost the production quality of your streams and create a more engaging and professional streaming experience for their viewers. This streaming kit includes a microphone, webcam, ring light and an arm with shock mount and pop filter, providing improved audio quality, enhanced lighting, and higher-quality video.

Camera optimized for streaming

The included webcam offers higher video quality, capturing gameplay in high resolution for clearer details and enhanced visual appeal.

Enhance your appearance with adjustable lighting

Adjust color temperature and brightness on the ring light to improve on-camera presentation, engaging viewers with better lighting.

Level up the audio quality

The streaming kit's microphone delivers superior audio compared to built-in options, ensuring clear and high-quality sound. The shock mount and pop filter further enhance audio for a polished streaming experience.

Easy Setup and positioning

The kit is designed for easy setup and positioning, allowing you to start streaming quickly.
